EDIGOR'S NOGE

COMPILATION of this kind speaks for itself and requires no introduction.

The work may be looked upon as a memorial of the munificent gift to the State, in January 1916, by Colonel

W. Hall Walker, who presented the nation with his very valuable stud of thoroughbred sires, brood mares, yearlings, foals, and horses in training.

It takes the form of a pedigree book, and is illustrated with a number of coloured plates after the paintings by Mr. Lynwood Palmer, and watercolour drawings by myself, of horses in and out of training which belonged to Colonel Walker and were bred by him.

All the pedigrees which are included here are those of horses, mares, etc., which Colonel Walker has handed over to the State; and with them are to be found, underneath the pedigrees, their performances in the past and any stud records which may have been registered.

The book also contains studies of the old racing home Russley, in Wiltshire, as well as several reproductions from watercolour drawings by Miss E. H. Adie and myself of the famous Japanese Garden at Tully, Kildare.

The cover design, title page, borders round the pedigrees, and other page embellishments are all creations of my own,

unless otherwise inscribed. For the drawing (p. 29) which shows the finish of the Derby of 1913, I used an excellent snap-shot that appeared in one of the daily illustrated papers. In it is to be seen 'Great Sport' (second on the left), which was eventually placed third by the judge in that never-to-beforgotten nose-neck-and-head struggle for the blue riband of the Turf.

I have to thank Mr. William Chismon for his valuable assistance in enabling me to carry out the work.
